

BUSINESS ANALYST – BI/ANALYTICS

Posted on 28 februari, 2020

Company Name Mölnlycke

Location Göteborg

Job Description

Do you want to feel good about coming to the office? Would you like to work in a place where your empathetic personality and robust business sense could help someone heal faster or protect them from infection? Do you want to truly care about what you do?

If the answer is yes, you think a lot like us. We spend our days making unique medical solutions that improve healthcare outcomes. We love our work because it matters to people. But without the right business-critical IT application, infrastructure and support, we can't do it.

*We're looking for a results-focused Business Analyst with a passionate and collaborative approach to join our **Business Change Management Team (BCM), within IT**. What makes you stand out is your passion for what your work means – coupled with your ability to listen to customers and respond with appropriate urgency.*

About the role

As a Business Analyst, specialising in BI/Analytics, you will:

- Preliminary work in projects to understand business needs, assess the business impact of these needs, capture, analyse and document the requirements
- Ensure that both functional and non-functional requirements are captured and work closely with both service owners and architects when developing or changing IT Services
- Express business needs in a way that enables the creation of IT Services whilst realizing the business value
- Act as a "bridge" between different stakeholders to ensure to draw forth, analyse, communicate and validate requirements for development of, or changes to business processes
- Support in the user acceptance test phase of the projects
- Contribute and collaborate within the business analyst network
- Build prototypes using BI/Analytics tools (Power BI, Cognos, SQL Server, etc) and support development phases when needed

- Support, advice and guide users and self-service power users

About you

- Master's Degree in Science (Technology or Business)
- Minimum 5 years of relevant experience, in requirements gathering and hands-on work building analytics/business intelligence and data warehousing solutions
- Solid business understanding for marketing and sales processes, alternatively logistics and manufacturing processes
- Strong organisation skills, self-going and self-motivating
- Demonstrated skills in requirement management, e.g. a IREB certification, is considered being an advantage
- Experience in both back-end and front-end BI/DW tools. Experience developing solutions with the Microsoft tools (SSIS, SSAS and Power BI) and/or Cognos BI/Analytics is considered an advantage
- Demonstrated strong communication skills in both verbal and written communication

The position is full-time and based in Gothenburg.

The closing date for applications is 28 September. Please send your CV and cover letter to linda.ac.andersson@molnlycke.com

Please contact Tom Bergqvist, Recruitment Partner, In-house Recruitment Services at tom.bergqvist@molnlycke.com or +46 733 87 27 22 if you have any questions regarding this position.

Om företag

Mölnlycke is a world-leading medical solutions company. We design and supply solutions to enhance performance at every point of care – from the hospital to the home.

We specialise in:

- Wound management: including dressings such as Mepilex® and Mepitel®
- Preventing pressure ulcers: with Mepilex® Border used prophylactically and devices to help turn and re-position patients
- Surgical solutions: including Mölnlycke trays, HiBi® antiseptics and Biogel® surgical gloves

Mölnlycke was founded in 1849. Nowadays our solutions are available in around 100 countries; we're the number one global provider of advanced wound care and single-use surgical products; and we're Europe's largest provider of customised trays. Our headquarters are in Gothenburg, Sweden and we have about 7,500 employees around the world.
