

GLOBAL PRODUCT MANAGER - SURGERY & WOUND CARE

Posted on 8 juni, 2020

Company Name OneMed

Location Göteborg; Malmö or Stockholm

Job Description

We are now recruiting a Global Product Manager - Surgery & Wound Care

If you want to make a difference in the quality of life of patients, you are welcome to join OneMed as a Global Product Manager reporting to the Sourcing and Business Area Director. This position can be based in any of our offices in Göteborg, Malmö or Stockholm.

This isn't just a typical Global Product Manager role. Instead you will be just as much involved in QA, Product Development, Manufacturing and Supply as in the commercial part of the business. You are the one who will connect all the dots. Hence we are looking for someone in Sweden called a "tusenkonstnär". *Someone with great many talents!*

To be successful in OneMed and this position as a Global Product Manager you have a high degree of cross-cultural sensitivity: understands and can empathize with differences in people and cultures. You are not afraid of starting something and make adjustments along the way; not fearful of acting with a minimum of planning. When facing new problems you learn quickly. Most certainly you are not afraid to challenge the way things are done and you always assign the highest priority to improving patient outcomes.

Key Responsibilities

- Work closely with Business Area Manager to execute private label strategies and to drive profitability.
- Support commercial product launches on time according to programs.
- Development of product- and packaging briefs together with the Sourcing teams as well as marketing material for training and sales.
- Responsible for coordinating Product data and Content specialists for accurate commercial content created.
- Coordinate product quality including test protocols, specifications, quality performance and recommendations. Expected to react rapidly to issues and/or develop functions to exceed customer expectations.

- Provide input to Sourcing in the manufacturer selection process including costs, contract, start-ups, pilot and processes. Support in cost reductions and tenders for private labels products.
- Support Market Area Manager with product knowledge, participate in reference groups, tender positioning and samples.

Qualifications

- Project Management skills and cross-functional experience
- Knowledge of regulation for Medical products and claim handling
- Experience from surgical products (drapes, surgical gowns etc.) would be considered an advantage
- University degree
- Self-organizing, and keeps focus under pressure
- Business acumen: awareness of how strategies and tactics work in the marketplace and driving commercial performance.
- Pro-active, takes initiative, positive attitude

What can we offer you?

We offer you a chance to work in a creative and developing environment with a lot of freedom under responsibility. The role is important for the day-to-day operations of the business and there are many opportunities to develop in an international environment. Our employees are all valuable to us and we strive to have a good mix of people with different backgrounds and experiences, creating a versatile and dynamic workplace.
