

HEOR & RWE MANAGER NORDICS

Posted on 24 januari, 2024

Company Name Daiichi Sankyo Nordics

Location Sweden

Job Description

Do you want to join an exciting journey? Our client, [Daiichi Sankyo Nordics](#), is now expanding and we are searching for a

Health Economic Outcome Research (HEOR) & Real World Evidence (RWE) Manager Nordics.

The Position:

Reporting to the Nordic HEOR Director, the HEOR& RWE Manager will drive and support optimal HEOR and RWE activities for Daiichi Sankyo Nordics product portfolio to secure market access in the Nordic countries.

Key Responsibilities:

- Drives and supports the development of high-quality HTA submissions including development and adaptation of cost-effectiveness and budget impact models
- Drives and supports the development and creation of RWE (e.g. treatment patterns, real-world efficiency, burden of illness, costing, epidemiology studies, etc.) that can be used with decision makers, and to support successful reimbursement and access for Daiichi Sankyo's products
- Adapts global health economic models and acquires data inputs to accurately populate the models to reflect local environments
- Supports adaptation of global value story and value message to the national markets in line with product strategy and local market needs together with the Country Market Access teams
- Supports coordination of reimbursement processes for products across countries and in the

alliances with other pharma companies

- Maintains expertise in scientific and health economic principles
- Supports internal HEOR education throughout training sessions and dissemination of market access expertise across the organization
- Drives projects on dissemination of health economic and outcomes research knowledge internally and externally in co-operation with different stakeholders
- Contributes to integrated evidence plans and data packages, to address the data needs of key external partners
- Works in close collaboration with the Market Access Country teams to optimize reimbursement and pricing strategies in each of the Nordic markets

Qualifications and personal skills:

- University degree in Health Economics or related discipline
- Minimum of 5 years of experience within a pharmaceutical company or consultancy in a Nordic HEOR/HTA/Market Access role with involvement in HTA submissions
- Fluency in English and one of the Nordic languages
- In-depth HEOR technical expertise and experience

- Strong numerical skills with experience of health economics modelling
- In-depth and up-to-date understanding of HTA methodology and processes in the Nordics countries
- Proven ability to successfully work within a matrix and multicultural Organization
- Excellent project management skills
- Strong communication, influencing and presentation skills
