

PRODUCT DEVELOPMENT MANAGER - MEDICAL DEVICES (SOFTWARE/HARDWARE)

Posted on 5 oktober, 2021

Company Name Confidential

Location Sweden (preferably Stockholm-region)

Job Description

Do you want to be part of a small, global and expansive medtech-company?

To our client in the Stockholm-region, we're now recruiting a **Product Development Manager**.

This role, in the Leadership team, requires both tactical/operational and strategic abilities. Reporting to the CEO, you manage directly a team of five-six colleagues covering both software and hardware development.

Your background

- Technical University degree.
- Solid technical experience, both from hardware and software/connected systems (focus on software/connected systems).
- Cross-functional experience specifically from working together with Sales and Marketing functions but also in co-operation with R&D/QA/RA-functions.
- Experience from connected health devices/services is meritorious.
- Some knowledge of computer databases, Microsoft Azure/cloud technology.
- Being familiar with quality and regulatory standards within medical devices.

You appreciate the high pace in a small and dynamic company and you have a passion for technical/software product management. You have skills in Project Management, Technical Product Management and product/function ownership. Apart from an organized and structured way of working you are definitely someone who is customer oriented by heart.

In this position you will have a great opportunity to develop in a global company with really high ambitions.
